

## CERTIFICATE OF ANALYSIS

Date: 02-09-2026

|                                |                                                                                                                                                                                                                                                  |               |                 |
|--------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|-----------------|
| Product Name                   | Amoxicillin Open Ring Decarboxylated Dimer (Sodium Salt)                                                                                                                                                                                         |               |                 |
| Chemical Name                  | (2R,4S)-2-(((1S)-1-((R)-2-Amino-2-(4-hydroxyphenyl)acetamido)-2-(((1R)-2-(((2R)-4-carboxy-5,5-dimethylthiazolidin-2-yl)methyl)amino)-1-(4-hydroxyphenyl)-2-oxoethyl)amino)-2-oxoethyl)-5,5-dimethylthiazolidine-4-carboxylic acid, Disodium salt |               |                 |
| Structure                      |                                                                                                                                                                                                                                                  |               |                 |
| Batch No.                      | -                                                                                                                                                                                                                                                | CAS No.       | NA              |
| Analysis Date                  | -                                                                                                                                                                                                                                                | Retest Date   | -               |
| Mol. Formula                   | $C_{21}H_{28}N_6O_8S_2 \cdot 2(Na)$                                                                                                                                                                                                              | Molecular Wt. | 704.8 : 2(23.0) |
| Long term Storage Condition    | Store at 2-8 °C in well closed container                                                                                                                                                                                                         |               |                 |
| Handling and Transit Condition | 25-30 °C in well closed container                                                                                                                                                                                                                |               |                 |

| Test                   | Result                |
|------------------------|-----------------------|
| Appearance             | -                     |
| Solubility             | -                     |
| <sup>1</sup> H-NMR     | Conforms to structure |
| MASS                   | Conforms to structure |
| Chromatographic Purity | >90%                  |
