

## CERTIFICATE OF ANALYSIS

Date: 07-08-2026

|                                |                                                                                                    |               |              |
|--------------------------------|----------------------------------------------------------------------------------------------------|---------------|--------------|
| Product Name                   | Sacubitril Impurity 32                                                                             |               |              |
| Chemical Name                  | (R,E)-4-((1-([1,1'-Biphenyl]-4-yl)-5-ethoxy-4-methyl-5-oxopent-3-en-2-yl)amino)-4-oxobutanoic acid |               |              |
| Structure                      |                   |               |              |
| Batch No.                      | -                                                                                                  | CAS No.       | 2957885-24-2 |
| Analysis Date                  | -                                                                                                  | Retest Date   | 5            |
| Mol. Formula                   | C <sub>24</sub> H <sub>27</sub> NO <sub>5</sub>                                                    | Molecular Wt. | 409.5        |
| Long term Storage Condition    | Store at 2-8 °C in well closed container                                                           |               |              |
| Handling and Transit Condition | 25-30 °C in well closed container                                                                  |               |              |

| Test                   | Result                |
|------------------------|-----------------------|
| Appearance             | -                     |
| Solubility             | -                     |
| <sup>1</sup> H-NMR     | Conforms to structure |
| MASS                   | Conforms to structure |
| Chromatographic Purity | >90%                  |
